

## \$53,000+

Awarded to **fund** various sustainability projects.

- \$35k for **Waterwise Garden**
- \$9k for **EV charging station**
- \$5.7k for **refillable amenity dispensers**
- \$3.5k for **zero waste stations** in Missions House and at public events

## 5 Employees

Reinvigorated the "**Green Team**", an interdepartmental team working to drive CCA's sustainability mission.

- Meets bi-weekly
- Creates and executes operational sustainability goals

## 2 Conferences

Accepted staff applications to present projects and findings.

- Poster display at the 2019 **American Solar Energy Society Conference** in July 2019
- Educational session at the **Colorado Preservation Inc. Savings Places Conference** in January 2020

## 100+ People

Trained on best **zero waste practices**.

- 1 All staff training (~40 people)
- 2 Tenant trainings (~60 people)
- 1 Green Team training (5 people)
- Plus a sustainability tip included in each bi-weekly staff news blast

## 13% reduction

In **housekeeping's** natural gas consumption after transitioning to **cold wash laundry**.

## 1 S&R Strategy

Consultant selected by CCA and the City of Boulder to collectively develop a **Sustainability and Resilience Strategy** for the Colorado Chautauqua.

## 3 Events

Hosted by the Green Team to **engage staff** in sustainability practices.

- Earth Day
- Community Clean Up Day
- Bike to Work Day

## 11 Cottages

Included in the **District Cooling Pilot Project** that installed high efficient electric air conditioners with underground trenching to minimize visual impact.

## All New Hires

Trained with the **updated Staff Sustainability Guidelines** and **orientation training** created by the Green Team.

## 200+ Unique Items

**Diverted** from the landfill.

- 160 Auditorium seats **donated** to ReSource Central
- 48 office and mobile phones **sold** for reuse (\$370)

## 2,880 Plastic Bottles

Replaced with **boxed water** at public events. Boxed water replaced plastic bottles to **reduce plastic consumption and dependence on fossil fuels**. Reusable water bottles were also permitted based on artist preference.

## 1 Cottage Rehab

Incorporated numerous **high performance preservation** techniques including material reuse, energy audits, high efficient insulation, EnergyStar appliances, limewash paint and an Energy Recovery Ventilator (ERV).

## 2020 Outlook...

- Expand district cooling project to include 6 additional cottages
- Finalize Sustainability & Resilience Strategy and develop next steps with the City
- Divert 22,000 plastic travel sized amenity bottles and 15,600 soap wrappers from the landfill by installing refillable amenity dispensers in guest bathrooms
- Complete installation of a dual head electric vehicle charging station
- Explore application for the Colorado Environmental Leadership program
- Acquire EnergyStar rating for Galey Cottage
- Create a purchasing policy for staff
- Transition to compostable packaging for lodging coffee
